

## Senior Year Considerations

### March and April:

- ✓ For colleges that have accepted you, look into their open-house programs for accepted students.
- ✓ Continue to apply for local or special scholarships. By now even financial aid forms for public institutions should have been sent. Be prepared to submit supplemental information to Financial Aid offices, if necessary.
- ✓ Financial aid offers for those who applied prior to mid-February, should be received from late March to mid-April. Some offers may come later.
